- Last-year students or graduates major in technology and **able to join full-time training courses.**

- GPA at least ~ 2.5/4.0
- Able to communicate in English and have English comprehension (~ from B1 level and above).
- Able to work flexibly and meet deadlines, willing to acquire updated technology as customers require.

[Minimum Qualifications]

- Basic IT knowledge with NW protocols, OS (Linux, Windows), Cloud, etc.
- Majored/experienced in computer science or IT security
- Work on weekends and holidays
- Active attitude to be willing to learn security monitoring with responsibility
- Communicate simply in English

[Preferred Qualifications]
- Basic knowledge of Cloud environment especially SCP
- Basic IT Security knowledge
- Malware, EDR, internal anomalies, etc.
- Related experiences in internal anomalies inspection and malicious code analysis
- Experience with using SIEM and SOAR

Benefits

Internship period:

- Develop your career through **intensive technical training**, hands-on experience, and **English practice** via global projects.
- Receive a **laptop and essential work equipment** to support your productivity.
- Join a **global team** with strong opportunities for **growth, learning, and international collaboration**.

Opportunity to become a full-time employee with:

- **Start salary of 10+ million VND/** month, **13th month salary**, **quarterly reviews**, and rewards according to projects.
- Insurance plan based on **full salary.**
- **100% full salary** and benefits as an official employee from the **1st day** of working.
- Meal allowance of 730,000 VND/month.
- **Medical benefit** for employees and family.
- Working in a fast-paced, flexible, and multinational working environment. Chance to travel onsite (in 59 countries).
- Free snacks, refreshment, and parking.
- Internal training (Technical & Functional & English).
- Working time: Monday to Friday, hybrid, **no check-in/check-out required**.
- **18 paid leaves/year** (12 annual leaves and 6 personal leaves).
